Welcome & Introductions

Proposed DCYF and PSESD Selection Points Feedback for 2020-2021

- Reviewed DCYF’s proposed points and PSESD’s aligned Selection Points Chart (DRAFT) in small groups
  - Difference in risk factor points and selection points
  - All non-100 points are 15, 10, or 5
  - Selection Points Chart has child section on 1st page and parent section on 2nd page

- Feedback
  - Subjective language in new selection criteria added by DCYF – How should we arrive at whether child chronic health condition or parent disability is mild, moderate, or severe?
    ▪ Discussed training for having conversations with parents and documenting, and more guidance that provides reasons why these questions are asked
    ▪ Discussed adding all categories to the application to make it less subjective – based on parent report
  - More clarification or guidance needed for the following:
    ▪ Past CPS: Can this include other family members?
    ▪ Military: Frequently moving has impact on learning and development
    ▪ Divorced/separated vs. Abandonment
    ▪ Severe chronic health condition: Why impact on attendance, but not for moderate or mild?
    ▪ Parent needs interpreter: Why only 10 points when child limited English is 15?
    ▪ Transitions: How should 1000 pts be prioritized?
  - If questions on application related to new selection criteria will be written differently than in ELMS, provide exact ELMS question in app review (procedure), Selection Points Chart, or both.
  - Public Assistance: 100 pts for both HS/EHS and ECEAP
    ▪ Needed to prioritize for HS/EHS (Performance Standard)
    ▪ Since this is not an eligibility status for ECEAP, 2 Waitlists will be required – more guidance coming soon in ERSEA Procedure
  - Add “current or history of” to household domestic violence and substance/drug/alcohol abuse

- DCYF is still making changes – DCYF Feedback Survey due January 14

- Policy Council will vote to approve PSESD Selection Points on January 28
