

AMERICAN EDUCATION SYSTEM

Who We Are

Liliana Amparo
Medina Hernández

Origin: Colombian

Ag: 40 years old

Marital Status: Married

Children: One, 17 YO

Blanca Rivas Lefort

Origin: Mexican

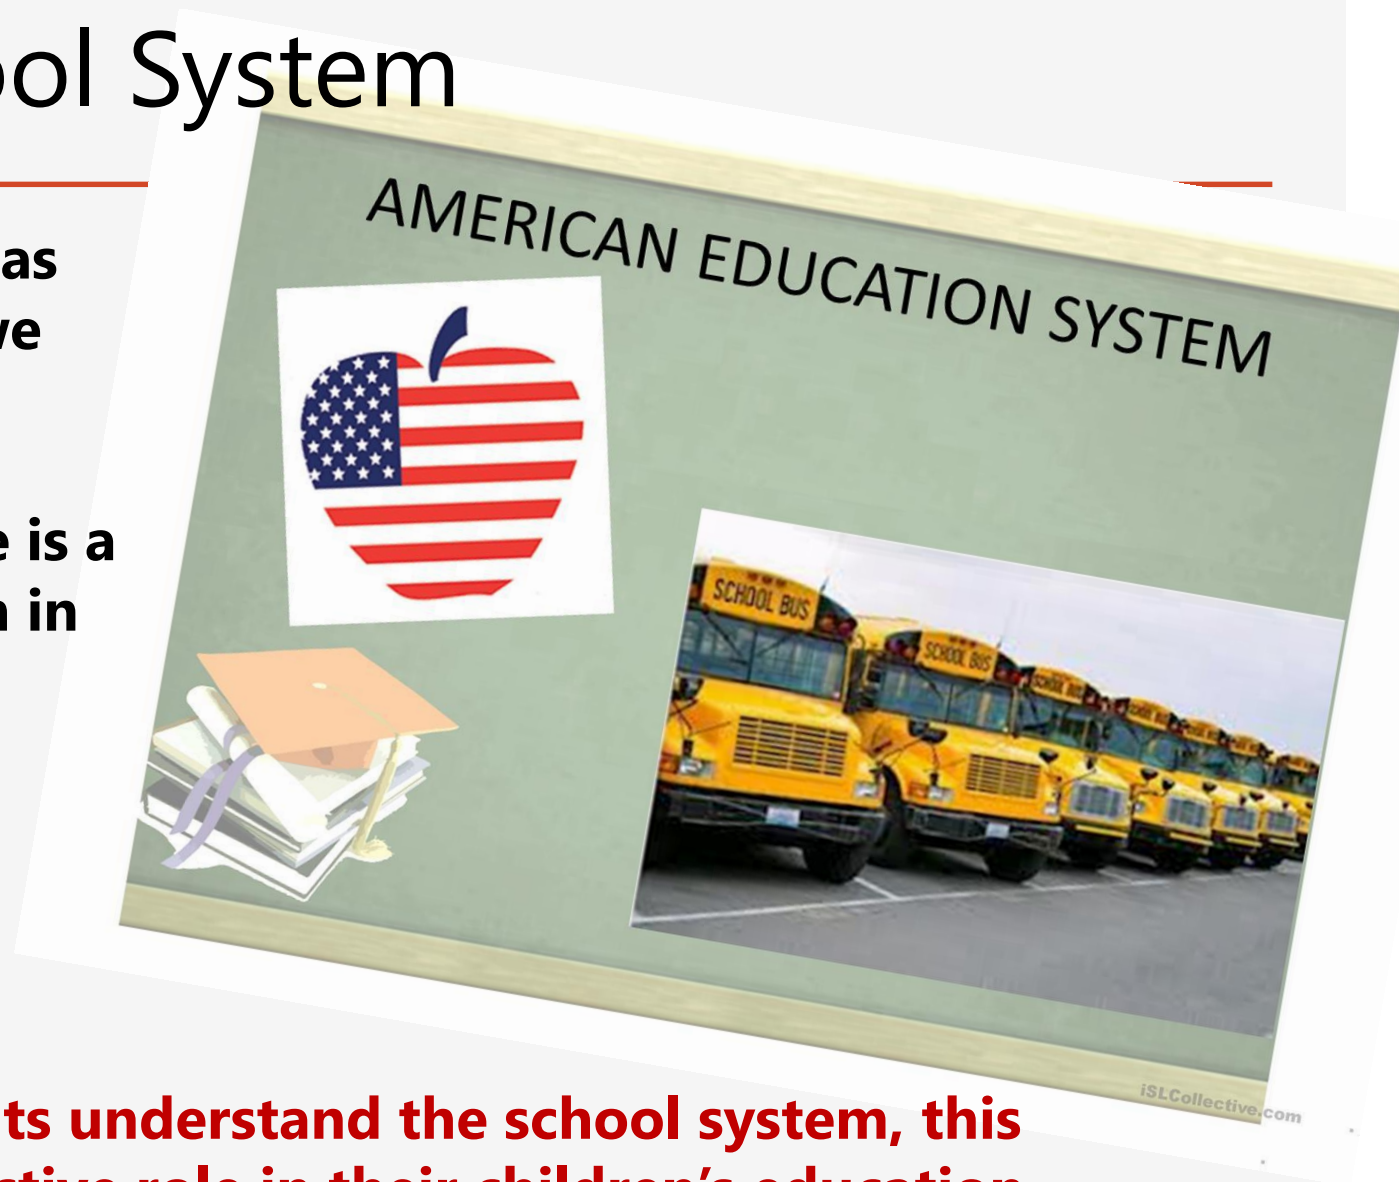

Age: 39 years old

Marital Status: Married

Children: Two girls, 13 and
17 YO

US School System

While working in school districts and as volunteers in our children's schools, we understood the need that the Latino community has in regards to how our children's schools work and that there is a lack of clear and accurate information in available Spanish.

Our mission is to help parents understand the school system, this way they can have a more active role in their children's education

Information about the American School System

- YouTube Channel
- Animated videos
- Short, in Spanish

**American School
System**

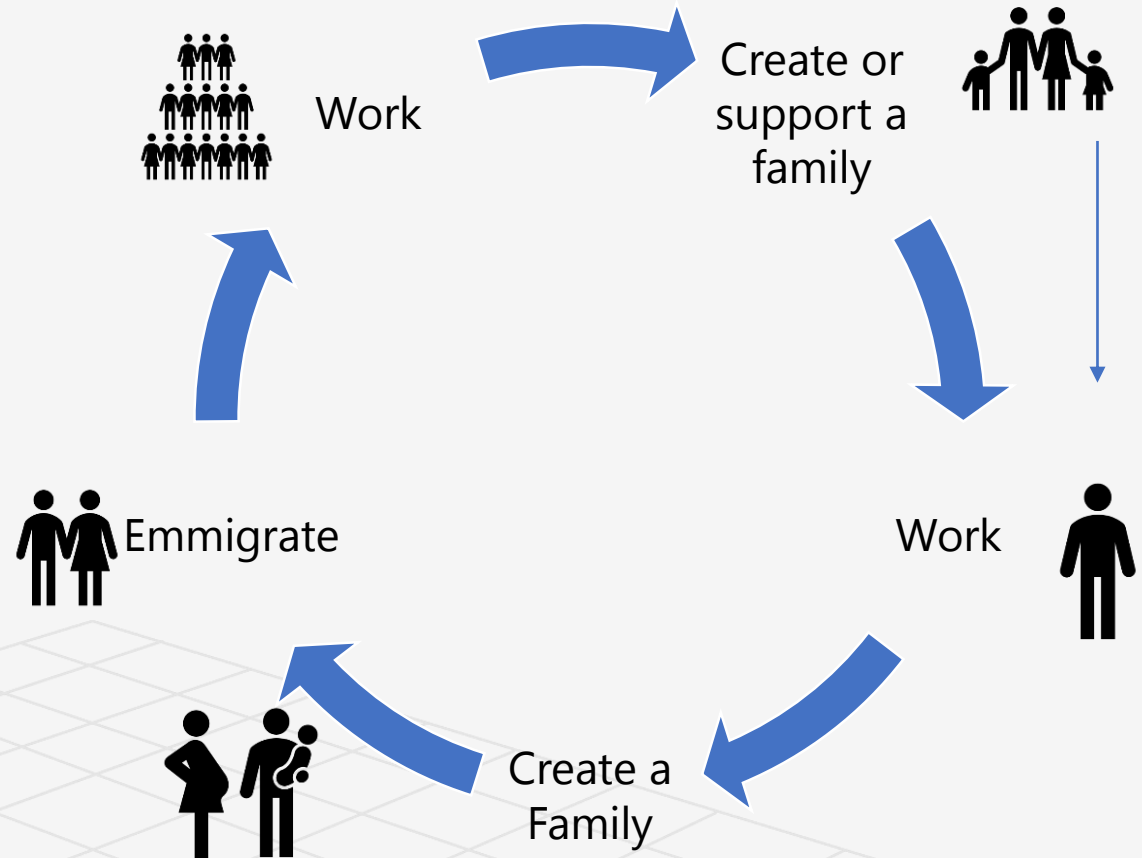

EDUCATION IS KEY IN ORDER TO STOP THE POVERTY CYCLE!

In the American School System, we believe that the poverty cycle has a big tipping point when college education becomes a reality for a family.

We know of immigrant families, that after being in this country for 3 generations, have still not been able to improve their social conditions and we want to contribute to change that reality.

We are convinced that if we help immigrant parents to understand the school system in the US and we show them that college education or postsecondary education is attainable, we will succeed in more minority students attending college; then they can help their families get out of poverty in a real way.

Common Immigrant Cycle

SOME OF THE TOPICS WE EDUCATE ON THROUGH OUR CHANNEL

1

How to communicate with the school – requesting interpreters.

How to identify teachers in the schools and how to get help (Counselors, TO, Principal, teachers, liaisons)

2

Navigating school webpages.

Understanding grades

Important things for each of the student's' grades and stages

OUR GOAL

As immigrants, we understand the challenges and that is why we want to help others navigate the school system so they can offer their children a real possibility of a better life

To educate about concrete topics on YouTube in an easy, clear and simple way so that parents can become an active and effective part of their children's school life.

To see more minority students graduate from post secondary education.

To spread information through presentations at different schools in Washington State.
